INTERNATIONAL RESEARCH HUB

ABOUT THE FOUNDATION

International Research Hub is an independent expert-analytical non-profit foundation that unites specialists from various fields to develop solutions to complex legal, governance, social, and technological challenges.

We conduct research, develop practical solutions, support the implementation of changes and assess their impact.

Our work is based on international standards, scientific evidence, independence and professional ethics.

VISION

To be a recognized expert and analytical center in Central Asia, uniting science, government, business and international partners to develop solutions that improve the quality of governance, strengthen the rule of law, drive innovation and achieve sustainable development goals.

MISSION

To contribute to effective governance, responsible business and sustainable social development through independent research, expert support, innovative solutions and strengthening international cooperation.

OUR VALUES

Independence

Evidence-based approach

Practical orientation

Professional ethics

Innovation and development

International cooperation

Focus on results

PARTNERS AND BENEFICIARIES

INTERNATIONAL ORGANIZATIONS

- Project support and implementation
- Research and assessments
- Analysis and expert reviews
- Monitoring and impact evaluation
- Training and capacity development
- Expansion of international cooperation

BUSINESSES AND COMPANIES

- Strategy and development
- Business process assessment and optimization
- Compliance and anti-corruption
- ESG and corporate responsibility
- Digital transformation and AI solutions
- Legal expertise and support

GOVERNMENT BODIES AND QUASI-GOVERNMENTAL ENTITIES

- Policy analysis and development
- Legislative improvement
- Institutional development and management systems
- Program and policy evaluation
- Public control and participation
- Training and capacity building

UNIVERSITIES, COLLEGES AND THINK TANKS

- Analysis and development of educational programs
- Research and studies
- Creation and development of think tanks
- Strategic planning
- Expertise and drafting of internal acts
- Assessment of compliance with legislation

NGOS AND YOUTH AND VOLUNTEER ORGANIZATIONS

- Grants and partnership
- Advocacy and protection of rights
- Capacity building and development
- Expert platforms and research
- Events and campaigns
- Scaling up and sustainability

INDIVIDUAL RESEARCHERS AND EXPERTS

- Scientific collaboration
- Research projects
- Publications and analytics
- Access to expert network
- Participation in conferences and discussions
- Professional development

We unite science, practice and innovation to create solutions that make people, organizations and governments stronger.

“

Our experience is the foundation for your solutions. Our solutions are the foundation for your development. Our results are your success.

”

AREAS OF ACTIVITY

Comprehensive solutions in research, expertise, consulting and development of solutions for the sustainable development of organizations and society.

Legal Expertise and Legislative Analysis

Legal analysis, development of draft laws and regulations, RIA, analysis of regulatory impact, comparative legal research and best practices.

Education and Human Capital Development

Development of training programs and courses, trainings, TOT programs for public institutions, business and NGOs.

Public Administration and Public Policy

Analysis and improvement of governance systems, development of public policies, regulatory reform, RIA and policy evaluation.

Monitoring, Evaluation and Impact Assessment

Monitoring the implementation of projects and programs, evaluation of effectiveness, impact assessment based on data and evidence.

Business Process Analysis and Evaluation

Diagnostics, optimization and automation of business processes, assessment of organizational effectiveness, evaluation of digital maturity.

OUR PRODUCTS & SERVICES

We provide comprehensive research, consulting and analytical services that deliver practical, evidence-based solutions, improve effectiveness, meet international standards and create sustainable social impact.

LEGAL AND POLICY SOLUTIONS

Legal Research and Expertise

- Legal analysis of laws and regulations
- RIA and regulatory impact analysis
- Legal monitoring and analysis of practice
- Drafting proposals and legislation

Public Administration and Public Policy

- Assessment of government programs and strategies
- Development of public policies and recommendations
- Administrative reforms and institutional development
- Ethics, transparency and accountability in governance

Research and Analytics

- Applied research and analytical reports
- Socio-economic analysis and forecasting
- Comparative analysis of international experience
- Evidence-based solutions based on data and facts

Compliance and Ethics

- Anti-corruption expertise and compliance
- Development of compliance systems and policies
- Risk assessment and internal control
- Codes of ethics and conduct standards

Inclusion and Gender Equality

- Gender research and expertise
- Development of gender strategies and action plans
- Assessment of accessibility and inclusion
- Promotion of equal rights and opportunities

ASSESSMENTS AND AUDITS

Data Protection and Privacy Audits

- Compliance audit with national and international standards (GDPR, RK Law)
- Implementation of ISO 27001, 27701, ISO 29100
- Risk assessment and data protection recommendations

Environmental and Social Assessments

- Assessment of environmental impact and risks
- Public consultations
- Environmental audit and monitoring
- Consulting on ESG and sustainability

Organizational and Institutional Audits

- Assessment of governance and processes
- HR audit and personnel management assessment
- Corporate governance evaluation
- Institutional development and optimization

Inclusion and Accessibility

- Audit of accessibility of services, facilities and digital products
- Compliance assessment with UN CRPD, WCAG and other standards
- Development of inclusive strategies and Universal Design consultations

Educational and Institutional Audits

- Audit of educational programs and institutions
- Quality assessment of education and ESG
- Development of recommendations
- Professional development and training

TECHNOLOGICAL AND INNOVATIVE SOLUTIONS

AI and Automation for Business and GovTech

- AI solutions and process automation
- Data analytics and predictive models
- Optimisation of business processes (oil & gas, mining, energy, logistics, etc.)
- Ethical and responsible use of AI

LegalTech and GovTech Solutions

- Digital platforms for legal and regulatory analysis
- Legal monitoring and compliance tools
- Drafting and automation of legal documents
- Integration of technology in legal and management processes

Data Management and Analytics Systems

- Creation of data warehouses and visualization systems
- Big Data analysis and analytical tools
- Data quality and security assurance

Research Platforms and Tools

- Development of research tools and databases
- Data collection, processing and analysis platforms
- Thematic indices and ratings
- Scientific publications and studies

Social Projects and Sustainable Development

- Development and implementation of social projects
- Grant and donor funding support
- ESG consulting and CSR strategies
- Impact assessment (SROI and others)

CAPACITY BUILDING AND PARTNERSHIPS

Training and Capacity Building

- Corporate and open trainings
- Development of skills in law, governance, ethics, ESG, AI, data protection and more
- Workshops and seminars

Consulting and Technical Assistance

- Individual consultations and project support
- Technical assistance for organizations and institutions
- Expert support and mentoring

Policy and Document Development

- Policies, procedures, methodologies and guidelines
- Templates and tools
- Best practice manuals

Event Organization and Expert Dialogues

- Conferences, roundtables, public discussions
- Expert panels and consultations
- Awareness campaigns

Partnerships and International Cooperation

- Search and development of partnerships
- Support for grant applications and donor funding
- Collaboration with international organizations and experts

OUR PRODUCTS CREATE VALUE

- ✓ Evidence-based and practical solutions
- ✓ Increased efficiency and transparency
- ✓ Compliance with international standards
- ✓ Strengthening social impact
- ✓ Building trust between people and institutions

QUALITY AND RELIABILITY

We follow international standards and best practices to ensure high-quality results.

MEASURABLE RESULTS

We deliver solutions that improve efficiency and bring sustainable outcomes.

PARTNERSHIP APPROACH

We build long-term relationships based on trust, respect and mutual understanding.

INNOVATION AND TECHNOLOGY

We use modern methodologies and technologies to deliver effective solutions.

SUSTAINABLE FUTURE

We contribute to sustainable development of society and the planet.

COMPANY STRUCTURE

Our structure ensures effective governance, transparency and high project delivery standards in line with the mission and values of International Research Hub.

OUR MANAGEMENT PRINCIPLES

- Transparency and accountability
- Integrity and reliability
- Professionalism and quality
- Inclusion and equality
- Sustainable development
- Long-term impact and responsibility

BOARD OF ADVISORS

Strategic guidance and oversight, approval of policies and key decisions

EXECUTIVE DIRECTOR

Overall leadership, strategic management, representation and partnership development

ADVISORY BODIES

Expert Council

Scientific and expert support, methodological support and quality assurance of research.

Internal Auditor

Independent assessment and control, risk management and policy compliance

Ethics and Compliance Committee

Ensuring ethical standards, compliance and conflict of interest management

LEGAL AND EXPERT RESEARCH

- Conduct legal research, expertise and studies
- Legal analysis of laws and regulations
- Regulatory impact analysis
- Legal opinion drafting and advisory
- International standards and compliance
- Anti-corruption expertise

ANALYTICS, EVALUATION AND MONITORING

- Data collection and analysis
- Impact assessment and evaluation
- Project performance monitoring
- Analytical reports and studies
- Program and project evaluation
- Indicators and methodology

EDUCATIONAL AND CAPACITY BUILDING PROGRAMS

- Development of training programs and courses
- Professional and organizational capacity building
- Trainings, seminars and webinars
- Educational materials and publications
- Certification and qualification enhancement

DIGITAL SOLUTIONS AND INNOVATION

- Development and implementation of digital solutions
- AI and automation tools
- LegalTech and GovTech solutions
- Business process automation
- Databases and analytical systems

PARTNERSHIPS AND COMMUNICATIONS

- Partnership and donor relations development
- Project proposals and fundraising
- Communication strategy and media relations
- Organization of events and expert platforms
- Collaboration with international partners

ADMINISTRATION AND OPERATIONAL SUPPORT

- Ensuring efficient office and operational work
- Financial management
- HR and organizational development
- Procurement and contract management
- IT and administrative support
